Jim Gabel—Colorado Sales Representative—oversees project operations and quotes commercial and residential jobs.
 Cell: 303-434-3801

All about our Kentucky Bluegrass

Our Kentucky Bluegrass is a 4-way blend that is a great performer on the Colorado front range. We take pride in our lush green quality turf grass. We nurture our grasses to a very strict maintenance program that will supersede your expectations. You can count on us to deliver a quality product with receptive customer service. We cut according to your order quantities and ship directly to your jobsite. Please allow a 2-3 day notice for all orders.

Farm News

Springtime is upon us, which means the start of a new and much anticipated business year in the green industry. With many aspects considered, 2005 is shaping up to be a good year for our industry. We can conclude this because of the continued economic growth of Colorado, the positive effects of wise water stewardship on our reservoir levels, which should result in less stringent water use restrictions. We have heard from many green industry professionals who are receiving more phone calls, bidding more jobs or have been given the go ahead on jobs that were idled due to the water restrictions.

Thanks to all who visited with us at the ProGreen Expo and we ask for an opportunity to earn your business this year. *Our ultimate goal is to make you look good so we look good!*

Take advantage of our installation.

We understand that our customers do not always have the time to install every project. We offer installation for every kind of project that you may have. Miguel Guardado is our Installation Superintendent and he oversees all installation operations. Once grounds are cleared and prepped, we come onto the jobsite to turn the dirt into a showcase of green turf.

If you are interested in finding out more details about installation for your next order, please call Theresa at 1-877-542-8873. Next time, you let us take care of the installation!
